Election/Restrictions

This application is in condition for allowance except for the presence of claims 1-19 and 44-46 non-elected without traverse. Accordingly, claims **1-19 and 44-46** have been cancelled.

Drawings

The drawings were received on August 9, 2005. These drawings are approved by the Examiner.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

IN THE SPECIFICATION

Page 1, line 1, the following paragraph has been inserted:

-- This Application claims the benefit of Provisional Application Serial No. 60/258,897 filed on December 28, 2000. --.

IN THE CLAIMS

Claims **1-19** and **44-46** have been cancelled.

Claim 25, line 2, "1mA/cm²" has been deleted and replaced with -- 1 mA/cm² --.

Claim 26, line 2, "100 mA/cm²" has been deleted and replaced with -- 100 mA/cm² --.

Claim 40, line 3, the word "compound" has been deleted and replaced with the word -- layer --.

Claim 42, line 3, "1x10⁻³" has been deleted and replaced with -- 1x10⁻³ --.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Claims **20-36** are allowable over the prior art of record because the prior art does not teach or suggest a method of electrolytically depositing two species simultaneously as a composite coating on an article, the article comprising a substrate, the composite coating comprising a mixture of a calcium phosphate containing compound and chitosan, the method comprising the steps of introducing, introducing and passing as presently claimed.

Claims **37-43** are allowable over the prior art of record because the prior art does not teach or suggest a method of electrolytically coating an article with a composite layer, the article comprising a substrate, the composite layer comprising a mixture of a calcium phosphate containing compound and chitosan, the method comprising the steps of introducing, introducing, passing, introducing and passing as presently claimed.

Claims **47-51** are allowable over the prior art of record because the prior art does not teach or suggest a method of preparing a substrate having a composite coating thereon, the method comprising the steps of introducing, introducing, passing, removing and evaporating as presently claimed.

The prior art does not contain any language that teaches or suggests the above. *CN 1,309,195 A* teaches an electrochemical deposition process for preparing a Ca-P ceramics/chitosan film on a metal surface. *CN 1,309,195 A* has a publication date of August 22, 2001, and is therefore, not valid prior art. Therefore, a person skilled in the art would not have been motivated to adopt the above conditions, and a prima facie case of obviousness cannot be established.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
